

ERA-NET CIRCLE MOUNTAIN TRANSNATIONAL CALL FOR PROPOSALS

[Climate change impacts and response options in mountainous areas](#)

CIRCLE MOUNTAIN CALL TOOL FOR RESEARCHERS

Instructions

1. Basic remarks

- This tool allows researchers to learn about each others' interests in order to identify possible partners and form consortia for project proposals within the frame of the CIRCLE Mountain call.

2. Add your entry first at <https://add.mec.es/researchtool/shtml/index.shtml>

3. Your information

- Fill in the personal details and scientific interests: name, surname, email, thematic field and abstract.
- For security reasons, before submitting, the system will ask you to type the characters showed in a picture. It must be typed exactly as you see it.
- Click at **Submit** only after verifying the data you have enter. There is no possibility to modify anything once you have submitted it.
- Take into account that your details will be available for the general public before checking.

4. Notes

- You can come back to the system at any time after and search for researchers.
- Depending on the browser you are using, you may see a message indicating that it does not trust the server's digital certificate. If you accept this message, you will be able to access the server without any problem.
