

# CIRCLE MED coordination

## Dissemination and implementation of research

# Presentation VERSeau

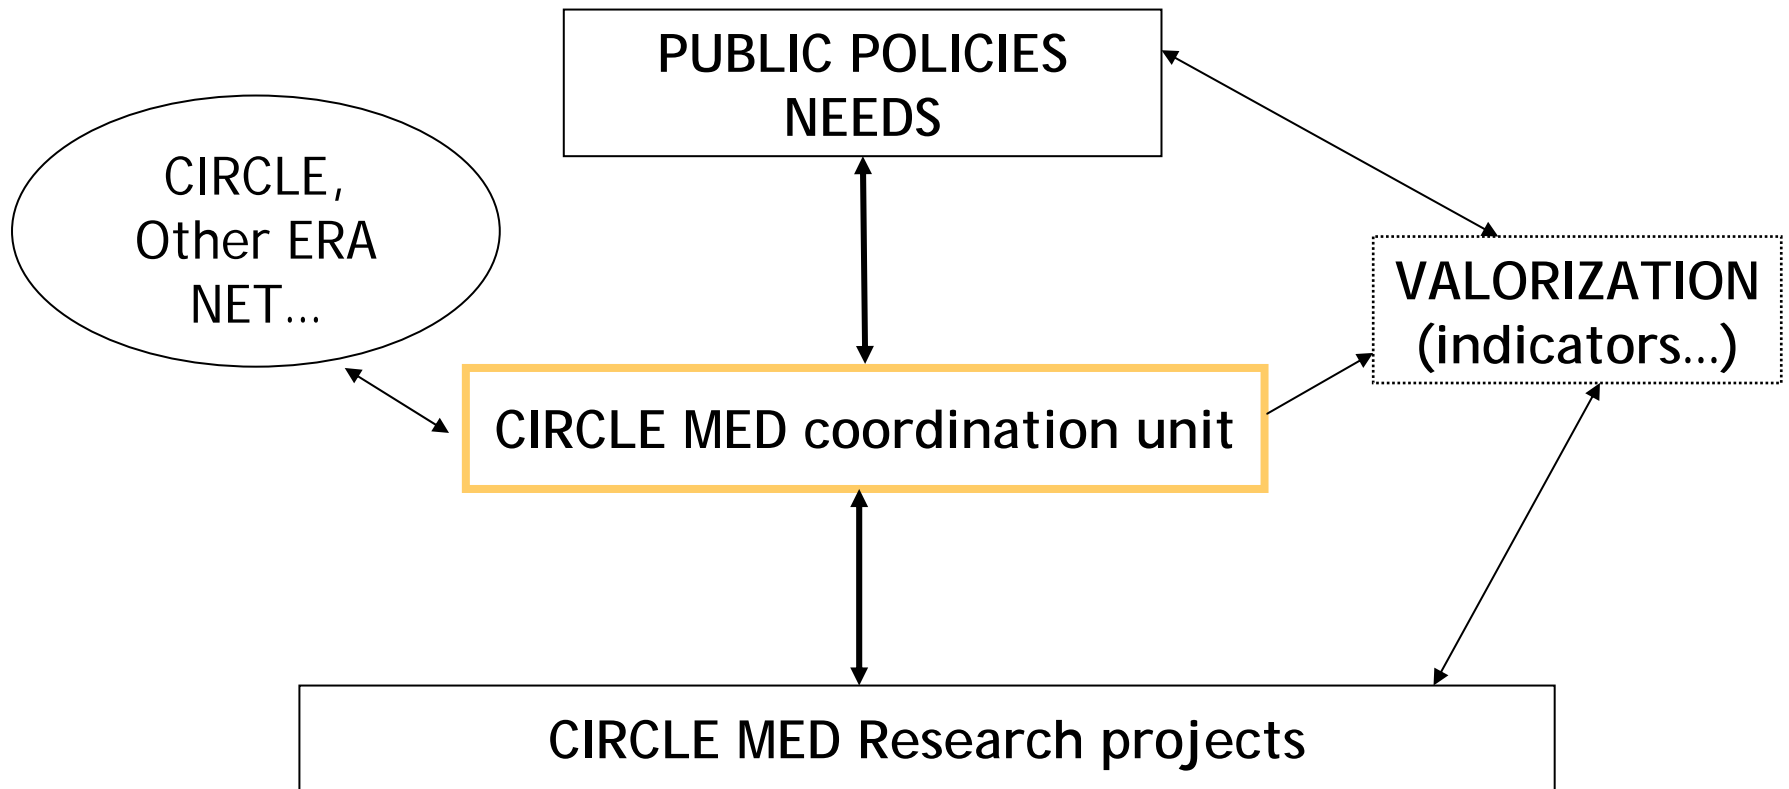

# Objectives of dissemination

- To enable policy people and decision makers to use results from the research
- Avoid tendency for research and user needs to drift apart

**Preliminary plans for consultation and dissemination need to be developed at the start and adequately resourced in the project budget**

# Coordinating unit role

# Communication channels

# A key challenge

- To put scientific information into context using language that can be readily understood by policy makers
- To overcome the natural inclination of scientists to be precisely correct rather than to be clear and simple

# Some indicators from EEA-JRC-WHO report 2008

**Table S.1 Observed (obs) and projected (scen) trends in climate and impacts for northern (Arctic and boreal), temperate (maritime climate, central/eastern) and southern (Mediterranean) regions of Europe**
